

Summary

The goal of this project is to create a similar site/service to <https://www.casinotopsonline.com/>. The design and layout of the site may be altered in order to make the new site unique and different, but it will hold vastly similar features and functionality. The project will have a focus of being user-friendly and fast, with a sleek design that is both desktop and mobile friendly.

Added Functionality

The user reviews on casino services will follow the format laid out on [Casino Review](#) where users can give positives and negatives and a star rating based out of 10. The user star ratings will not effect the actual star rating of the casino, as this will be controlled by admin.

There will also be a “follow casino” feature which will alert users of changes to the casino. This will be sent to them as a message on their dashboard.

Pricing/Deadlines

The total cost of this project will be \$10,000, paid in three increments with an intended project estimated completion date of June 27th. Payments will be scheduled as follows:

3/17/17 – \$3,333.33

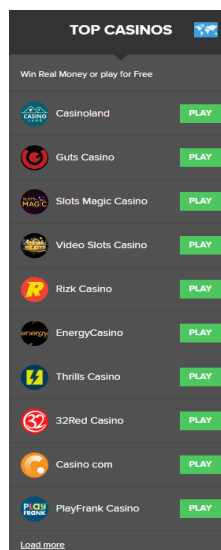

4/27/17 – \$3,333.33

5/27/17 – \$3,333.33
